Lake Braddock High School Academic Advising 2024-2025

Learning Targets

Today you will review course offerings and graduation requirements, so that you can select courses for the upcoming school year.

The goal is to accurately enter your courses in SIS.

Today's Session Logistics

Advisory Teachers will be assisting counselors today by playing this recorded session.

This recording will also be posted in the **Curriculum Fair Site** so you have it as a reference.

Counselors will also be stopping by classrooms to answer questions throughout today's session.

Course Selection

- COMPLETE your Course Selection in SIS NOW!
- Courses must be selected in SIS by January 25th.
- ALL students must list THREE alternative elective courses.
- You will have an individual meeting during school in February which is designed for student and school counselor only.
- Your student appointment is already scheduled Please do not miss it! If you do, it is the **student's responsibility** to contact their counselor to reschedule immediately.

Course Selection

- •Make sure you meet the **prerequisites** to take a class. These are courses a student must complete prior to entering a course.
- •Talk to your core teachers (English, Math, Science, Social Studies and World Language) regarding their recommendations for your next year's classes (Small Group, Team-Taught, Regular, Honors, DE or AP).
- •BALANCE BALANCE your workload with everything else you have on your plate: Classes, possible virtual classes, extracurricular activities, employment, family situations, mental health concerns, etc.

NO Schedule Changes once school begins:

- Specific teacher requests will not be honored.
- •ALL students will be expected to remain in their classes, including Honors, DE and AP classes, for the **entire** school year. **NO schedule changes**.
- •Once school starts, student requests for schedule changes will be made **only** to correct errors.
- •Once school starts, there is virtually NO room to move around a schedule.

Students analyze the ways authors use language and techniques to shape meaning in literary and nonfiction texts, and they consider how texts provide insight to our complex and changing world. In addition to print texts, students analyze and evaluate how media messages influence beliefs and behaviors across time, place, and culture. Through the study of these varied, authentic texts, students build a sophisticated vocabulary by applying their knowledge of connotations, denotations, word origins, and structures. Students apply their language and communication skills to create texts for authentic audiences and purposes, and they use writing as a tool for personal inquiry and communication. Students also communicate through oral presentations and small-group collaboration specific to authentic situations. Throughout the course, students develop a formal research paper that analyzes complex issues through the synthesis of diverse sources.
